### Psychological & New Consciousness: Powerful Transformations for Enriched Mind, Body and Spirit

Explore the depths of your most valuable asset: the mind. Repattern self-sabotaging behavioral patterns with the profound influence of color and to transform awareness into unlimited potential.

ColorAlchemy is a healing process through the daily use of color consciousness. It is so easy because the endless supply of color surrounds you in every moment. ColorAlchemy triggers memory and is a catalyst for emotional healing. Color is the supreme balancer because it is pure energy.

According to Newtonian science and quantum physics, color is the source of all creation, and is the most powerful resource available to heal brain and body as well as to deepen the spirit.

ColorAlchemy is a perfect healing tool for Physiologists and Counselors because by just asking a patient about their favorite and least favorite colors, core issues are immediately revealed. It is amazing! You'll get insight into which specific colors to use as "medicine" on which to accelerate emotional healing.

ColorAlchemy is great for all healers as color quickly reveals physical weaknesses.

Massage Therapists will know what areas need more attention. Nurses will get insight into holistic body functioning, and Dietitians will know what color foods to add to diets. And of course, knowing the color personality of your patients, you'll know that best way to support and guide them.
